JULY 2024

PRO SHOP GOLF CART PARKING

New parking spaces in front of the pro shop and existing spaces under the patio near the restrooms are for 20-minute parking only, intended for members checking in with the starter, using the restrooms, getting water and ice, etc. Please do not park your personal cart in these designated spots for longer than the designated time. Thank you for your cooperation.

DAILY USE TRAIL FEE

Resident golf cart owners are charged a \$60 trail fee annually per golf cart, which allows them access to the 27-hole course. This fee is valid only for the resident who owns the cart and anyone living at the same address. If two golf carts are associated with a specific address and both are used on the golf course, two trail fees are assessed.

As the trail fee is assessed per address, anyone who borrows the golf cart to use on the court must pay an \$8 daily use trail fee.

DRIVING RANGE ETIQUETTE

Because the driving range is busier than ever, here are a few reminders about range rules and etiquette:

- **Reservations:** Not required
- **Player waiting:** After completing one bucket, step aside to allow the next person to practice. You may purchase another bucket and wait for another turn.
- **Player with a guest:** Please share a hitting space, especially if others are waiting.
- **Ball use:** Using your own golf balls or taking range balls home is prohibited and a misappropriation of Village amenities.

CANCELING TEE TIMES

When canceling a tee time via the ForeUP application, the cancellation applies only to you. Although you may book times for multiple players, cancellations must be done individually. This ensures other players on the team do not lose their tee time in case you need to cancel.

Please do not use the ForeUP “Update” button to cancel a tee time; instead, contact the pro shop if you need assistance canceling.

JULY 2024

GOLF CLUB RENTAL SETS

A great way to test a set of clubs before purchasing.

The 27-hole golf course now offers brand-new rental sets for residents and their guests. Cleveland and Callaway golf clubs are available in regular, stiff, senior, ladies and left-handed shaft types. Rentals also come with two sleeves of golf balls. Visit the pro shop for more information.

INEXPERIENCED GOLFERS ON THE 27-HOLE COURSE

In the summertime, family and friends visit Village residents with greater frequency and may look forward to hitting the links. For those who have never golfed before or who have limited playing experience, the par-3 course (located inside Gate 7) may provide a more fun experience. Golfers who play the 27-hole course must understand golf etiquette and game rules, and keep up with the groups in front of them.

For those looking to learn more about golf, contact the pro shop for questions about individual or group lessons. Tee times on the 27-hole course may be booked within a seven-day window.

RULES CORNER

After completing a putt, retrieve your ball from the cup by hand. Using your putter to “dig” out the ball damages the cup rim, making putting more difficult for others and requiring repair by golf course staff.

As summer heats up, please exercise caution when outdoors:

- **Hydrate.** Water or sports drinks will keep your body cool; alcohol and soda will only dehydrate you. A good rule of thumb is to sip water after every shot.
- **Reapply sunscreen after nine holes.** Perspiration dilutes sunscreen, increasing your susceptibility to burns. Set a timer to reapply protection every two hours.
- **Carry two pairs of gloves.** Place one set to dry when it gets wet, put on the dry pair and rotate as the day progresses.
- **Listen to your body.** Some days are just not meant for golf. When you feel overheated, move indoors.

A Note From Tom McCray

Last, be sure to let us know if we can ever be of any help!
