

Help at home

The Mac Club has been asked if we have computer consultants to help them at home.

Here are business cards of Mac Club volunteers who are willing to make house calls for a fee.

The Mac Club doesn't endorse anyone and advises everyone to clearly explain what kind of help they need and to negotiate the fee before you hire them.

There is an Apple website (**Apple Accessibility**) and phone number where you can get non complicated questions answered by phone or email.
