

Mac Club Operation
COVID-19
June, 2020

Important upcoming changes regarding the Mac Club.

The Mac Club, along with all other clubs, has been closed since March 12, 2020. The shutdown was directed by Village Management Services (VMS) as a result of the COVID-19 crisis. I want to update you on some of the changes the Club will encounter when we are given permission to reopen. In accordance with VMS requirements, certain safety rules and guidelines are to be followed to protect you and our volunteers.

Although we don't have all the specific rules now, the most significant operational challenge we will face is maintaining a social distance of six feet while trying to provide services that you have come to rely upon. This requirement affects all previously routine services such as individual help, classroom instruction, computer usage, printing, etc. Some services will be curtailed, some will be done in a different manner and some may not be possible at this time.

While the Learning Center has been shutdown these past months, your Board of Directors and Associates have not been. We have been busy assessing our total operation and how it can be modified to provide most services while following the safety requirements. When we are permitted to resume operations we hope you will find most of the same dedicated volunteers back, ready to fulfill their duties in an innovative manner.

We are all looking forward to seeing you again in the Learning Center. I will update you when I have more details. Thank you for your patience and understanding.

Gene Hollaway
President
