## **SPEAKERS**:

**Brandi Najm,** Orange County Fire Authority, Community Education Specialist, presented many helpful ways to prevent fires in your condominium. First she cited the top 3 causes of fire as:

Some ways of preventing fires are to:

- 2. Always keep anything that can burn 3 feet away from heating equipment.

You should use a fire extinguisher if the fire is small. Make sure you have a clear escape path. Before entering a room make sure smoke and heat have not filled the room. Have a working smoke alarm. Make an escape plan. Designate an outside meeting place so you can check that everyone in your unit and your building is accounted for.
