

Laguna Woods Archery Club – Globe for December 4, 2025, Publication:

The Laguna Woods Archery Club provides an indoor archery range for the exclusive use of resident, archery club members within the Village. It is located next to Fitness #1 and open for use from 1-3PM daily and 11AM-1PM on weekends. The range is a unique amenity not offered by most other active-adult, senior communities. The closest retail indoor range is at least a 15mins drive and costs about \$15 per hour, whereas our range costs \$20 for as many hours as you can shoot while your membership remains current. Most importantly, all the club's archery equipment is available for members without cost, not to mention the Orientation course and additional coaching upon request.

The LWAC maintains safety within the range by mandating a Range Safety Officer present at all open LWAC ranges. The RSO supervises the range within universal range safety protocol so archers understand what behaviors and actions they can or cannot do at this and any other range.

The range target distances vary from 5 to 20yds (18 meters) and left to the discretion of each archer. There are 14 target lanes consisting of six wood bale and eight hard foam blocks for attaching paper targets. We have right and left-handed recurve bows, arrows and protective gear for members to use freely. We also provide a basic archery course for beginners as part of the membership.

If interested, contact us at anson2@hotmail.com and/or drop by our open range sessions for more information.
